

Statement regarding the project in course 22118/22168, Advanced Unix & Python for Bioinformaticians.

Names of group members:

Name of project:

The work in this project is done by the group, with no help from third parties. No code or text has been copied from other sources without citation.

Any use of Generative AI has been documented. This does not include generic questioning, but it includes any code or text generation by AI.

The university rules on plagiarism have been upheld; see the DTU Study Handbook rules, paragraph 3.9.
